COMMERCIAL PROFILE

2012 - 2026

About us

Basic Elements Solutions is a leading international company offering turnkey solutions covering all design and contracting aspects from planning, conceptualizing, design and executing.

With a wide portfolio of projects ranging from decorating a hospitality, residential and commercial design that can provide the services of full turnkey projects.

Our Services

FIT-OUT WORKS

Complete fit-out solutions delivered through precise execution, strategic planning, and quality craftsmanship.

JOINERY & WOOD WORK

Custom architectural joinery and premium woodwork manufactured with advanced techniques and high-quality finishing standards.

SOLID SURFACES

Expert fabrication and installation of seamless, durable, and high-performance solid surface solutions.

Built on Expertise

Basic Elements Solutions is a multidisciplinary design, build, and fabrication company with over 15 years of experience delivering projects across Qatar, the UAE, Iraq, Saudi Arabia, Georgia, and international markets.

Our expertise includes turnkey interior solutions, high-end architectural joinery, woodwork and solid-surface fabrication. Supported by skilled craftsmen, modern production capabilities, and a worldwide network of partners, we manage every stage from concept and fabrication to installation and final delivery.

Driven by innovation, craftsmanship, and precise execution, BES creates functional, refined, and reliable environments tailored to the individual needs of every project.

Commercial

Creating refined commercial environments through thoughtful design, precise craftsmanship, and complete turnkey execution.

Basic Elements Solutions delivers integrated design and build services for commercial spaces internationally, including hotels, restaurants, lounges, offices, retail environments, and public facilities. Each project is developed with a focus on functionality, material quality, and long-term performance, ensuring that every space supports both operational needs and a strong visual identity.

From interior fit-out and bespoke architectural joinery to solid-surface fabrication, our multidisciplinary expertise allows us to create distinctive commercial environments that balance design character, durability, comfort, and seamless execution.

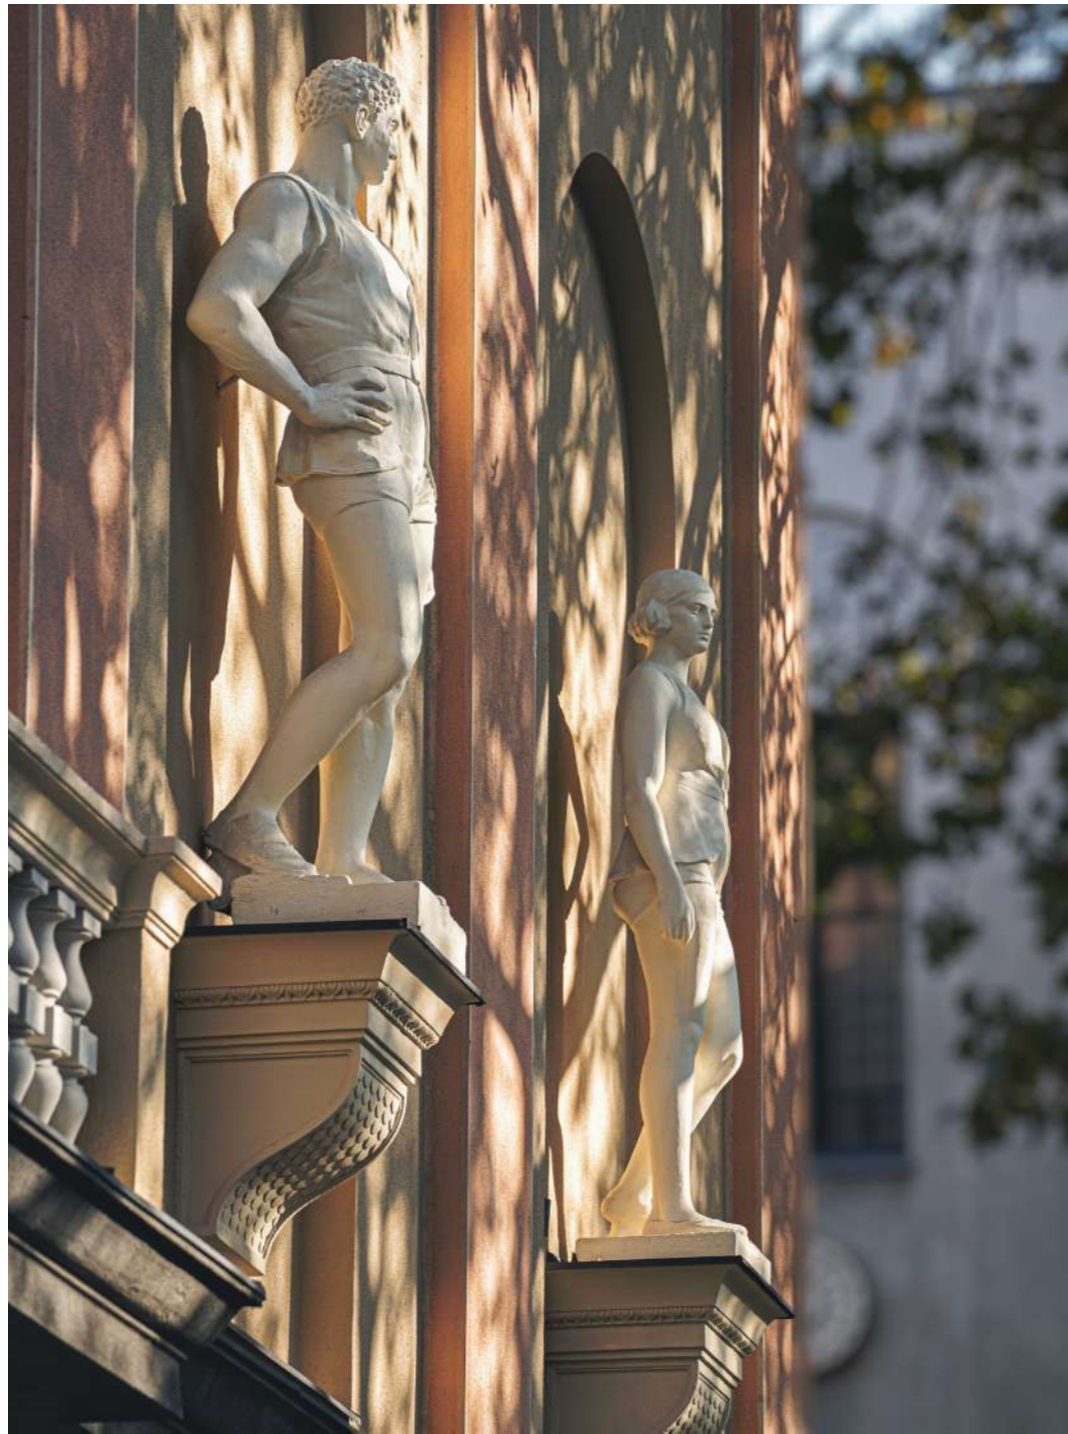

Eagle Hills Sales Center

Tbilisi, Georgia

Eagle Hills Sales Center in Tbilisi is designed as a refined and welcoming residential sales environment, combining elegant lounge seating, curated display elements, framed project visuals, and carefully detailed interior finishes. The space creates a calm and professional atmosphere where visitors can explore the project, meet the sales team, and experience the quality of the development.

Eagle Hills Showroom

The dining area is designed as a vibrant and atmospheric restaurant interior, combining lush greenery, soft globe lighting, pink upholstered seating, dark flooring, and refined decorative details. The layered planting and warm lighting create a lively hospitality setting that feels fresh, playful, and connected to the energetic identity of Crazy Pizza Doha.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both the restaurant’s visual concept and daily operation. Lighting systems, mechanical services, wall finishes, flooring, ceiling elements, and service-related details are integrated to create a functional, durable, and polished dining environment.

SCOPE OF WORK

Joinery and Millworks

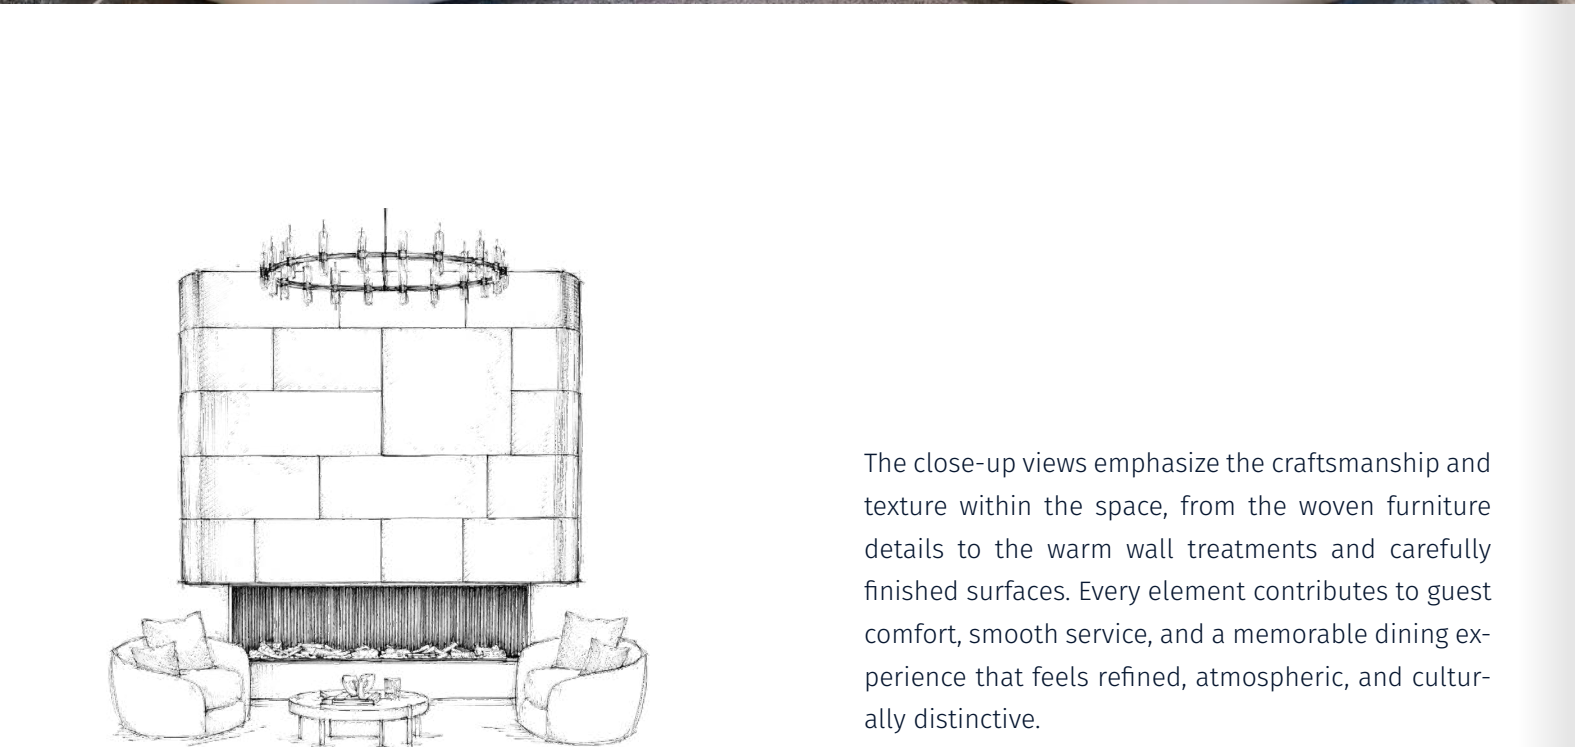

The completed space balances playful restaurant character with commercial performance. Every detail, from the seating layout and lighting to the greenery and technical coordination, supports guest comfort, smooth service, and a memorable dining experience suited for casual meals, social gatherings, and lively hospitality moments.

The dining area detail highlights the restaurant's warm and expressive material language, combining rich timber finishes, woven chair textures, patterned flooring, decorative ceiling panels, and soft ambient lighting. These elements create a layered hospitality atmosphere that feels elegant, comfortable, and strongly connected to the character of Lebanese dining.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both the interior concept and daily restaurant operation. Lighting systems, ceiling details, wall finishes, flooring, mechanical services, and technical elements are integrated to create a functional, durable, and visually cohesive dining environment.

The close-up views emphasize the craftsmanship and texture within the space, from the woven furniture details to the warm wall treatments and carefully finished surfaces. Every element contributes to guest comfort, smooth service, and a memorable dining experience that feels refined, atmospheric, and culturally distinctive.

The seating area is designed as a refined and lively restaurant interior, combining leather dining chairs, dark banquette seating, warm lighting, decorative display walls, and carefully planned table arrangements. The material palette creates a stylish and welcoming atmosphere that reflects the playful yet elegant identity of Crazy Pizza Doha.

Seating Area

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both the restaurant's visual concept and daily operation. Lighting systems, mechanical services, wall finishes, flooring, ceiling elements, and technical details are integrated to create a functional, durable, and polished dining environment.

The completed space balances comfort, visual character, and commercial performance. Every detail, from the seating layout and service areas to the lighting and decorative finishes, supports smooth restaurant operation while creating a memorable guest experience for casual dining, social gatherings, and lively hospitality moments.

MDL Beast House

Riyadh, KSA

MDLBEAST House in KSA is a creative hospitality and entertainment destination dedicated to music, culture, and community. Located in Riyadh, the space brings together live performances, workshops, studio facilities, social gatherings, and curated events within a contemporary members-club environment. Its concept reflects Saudi Arabia's growing creative scene, offering a dynamic place where artists, music lovers, and industry professionals can connect, collaborate, and experience the evolving sound culture of the region.

Beast House Studio

Beast House Studio is designed as a bold creative and entertainment space, reflecting the energy of music, performance, and contemporary Saudi culture. The interior combines industrial architectural elements, exposed structures, vibrant purple lighting, acoustic ceiling treatments, and layered seating areas to create a dynamic environment for events, collaboration, and social interaction.

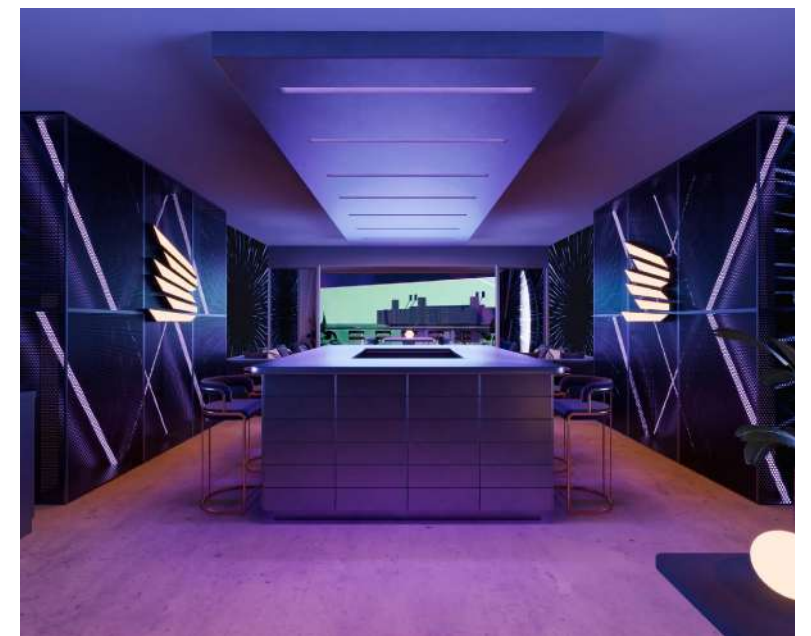

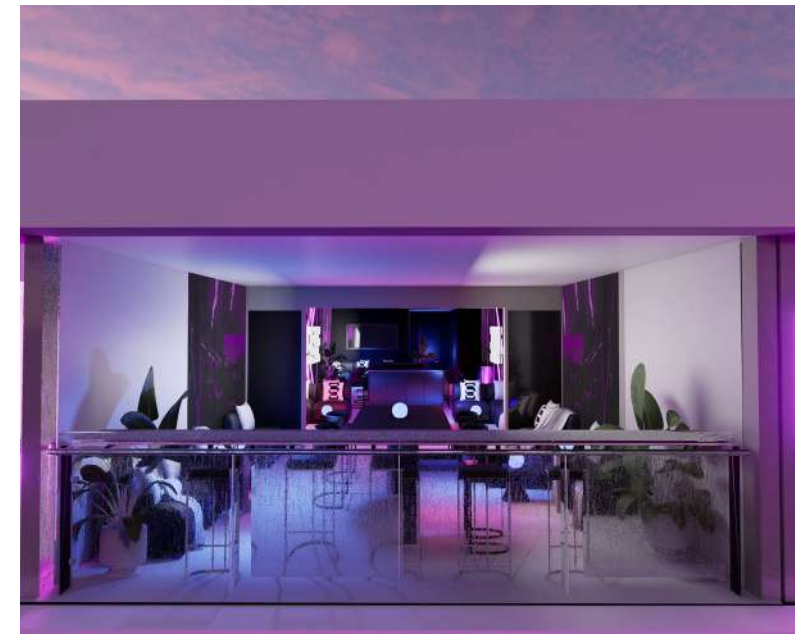

Reception

The reception area introduces a strong first impression through dark finishes, illuminated branding, greenery, and expressive lighting details. The design balances raw industrial character with a polished hospitality atmosphere, creating a space that feels energetic, creative, and immersive while supporting the functional needs of a modern music and cultural hub.

SCOPE OF WORK

Fit-Out Works

The bar lounge is designed as a bold and atmospheric social space, defined by dramatic purple lighting, dark finishes, and a contemporary entertainment-driven character. The central bar counter becomes the main focal point, while linear ceiling lights, graphic wall details, and metallic accents create a strong visual rhythm throughout the interior.

The design combines lounge comfort with a dynamic nightlife atmosphere. Soft seating, high bar chairs, layered lighting, and reflective surfaces create an immersive setting for private events, music sessions, and social gatherings, giving the space a modern, energetic, and memorable identity.

Alif Book Store

Doha, Qatar

Alif Bookstore in Doha, Qatar is designed as a modern retail and cultural destination that brings books, lifestyle products, technology, stationery, and creative experiences together in one space. More than a traditional bookstore, it offers a welcoming environment for reading, learning, browsing, and discovery.

Book Store

Alif Bookstore is designed as a modern commercial and cultural destination, combining a strong architectural presence with a welcoming retail experience. The clean white exterior, turquoise façade pattern, large glazed entrance, and bold signage create a recognizable identity that reflects the brand's contemporary and creative character.

Store Exterior

The design balances functionality, visibility, and customer experience. Open storefronts, clear circulation, landscaped outdoor areas, and expressive façade detailing create an inviting environment for visitors, while the overall architectural language supports the bookstore's role as a place for reading, learning, shopping, and discovery.

SCOPE OF WORK

Fit-Out Works

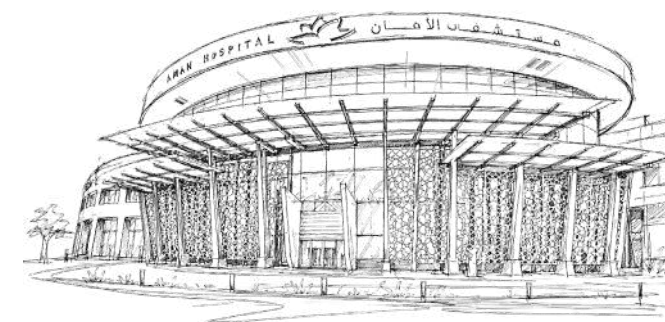

The bookstore interior is designed as a bright and engaging retail environment, combining open circulation, clear product display, and a contemporary architectural character. Soft white finishes, warm timber shelving, linear ceiling lighting, and turquoise accent details create a clean and welcoming atmosphere for browsing, reading, and discovery.

The design supports a comfortable customer journey across different book sections and retail zones. Curved ceiling forms, organized shelving, open floor layouts, and visible category signage help guide visitors through the space, while the central void, escalators, and layered display areas create a dynamic commercial interior that feels modern, accessible, and connected to the cultural identity of Alif Bookstore.

The interior also reflects the bookstore's role as a community-focused destination, where retail, education, and leisure come together in one organized environment. Comfortable reading areas, clear wayfinding, and flexible display zones create a space that supports both quick visits and longer browsing experiences, giving the bookstore a welcoming and modern cultural identity.

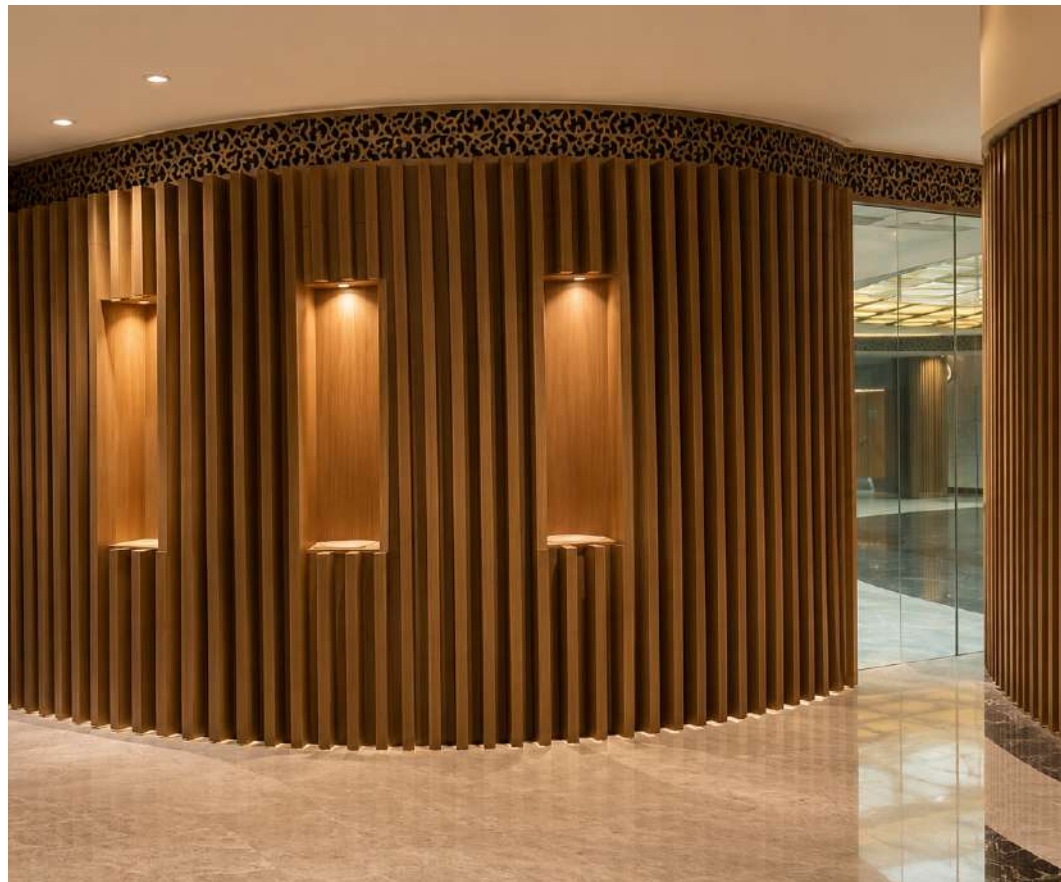

Aman Hospital

Doha, Qatar

Aman Hospital in Doha is designed as a premium healthcare destination, combining advanced medical services with a refined and patient-focused environment. The hospital brings together multiple specialties, modern medical technology, and carefully planned facilities to support high-quality care, comfort, and clinical excellence.

Interior Woodwork

The hospital interior is designed as a refined healthcare environment, combining clinical functionality with a calm and hospitality-inspired atmosphere. Marble finishes, warm metallic accents, soft seating areas, decorative ceiling details, and carefully integrated lighting create a welcoming space that feels professional, comfortable, and reassuring for patients and visitors.

The design balances durability, elegance, and clear circulation. Fixed furniture, timber works, glass details, and refined wall treatments support the hospital's operational needs while creating a polished interior identity. Every element is carefully coordinated to enhance comfort, improve the visitor journey, and reflect the premium character of a modern healthcare facility.

SCOPE OF WORK

Joinery and Millworks

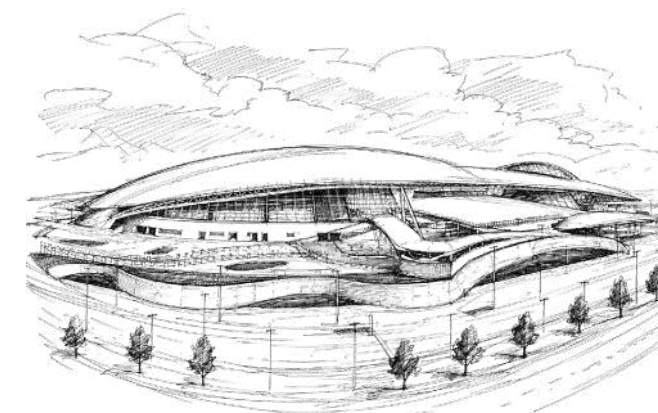

The reception area was completed as part of the full interior fit-out works, combining custom joinery, timber wall cladding, stone flooring, integrated lighting, and carefully coordinated finishes. Warm wood tones, curved forms, and refined material details create a welcoming and professional arrival experience.

Reception Area

The reception desk forms the central focal point, featuring a curved profile, integrated lighting, and custom-made finishes. Vertical timber slats, dark wall panels, and layered stone flooring define the surrounding space and create a refined architectural character.

BES delivered the complete fit-out with close attention to material junctions, detailing, and installation quality. Every element was carefully coordinated to ensure functionality, durability, and a consistent premium finish throughout the reception area.

AL Shaqab Museum

Doha, Qatar

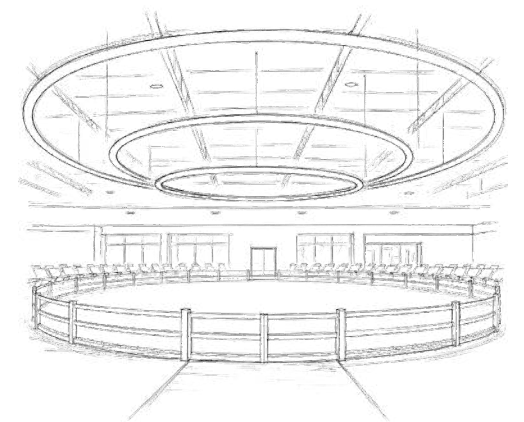

Al Shaqab Horse Museum is designed as a cultural and educational destination that celebrates Qatar's deep connection with Arabian horses. The space reflects the heritage of equestrian tradition through refined exhibition areas, curated displays, and a strong narrative focused on horse breeding, horsemanship, and the historic importance of the Arabian horse in Qatari identity.

Horse Museum

The horse museum is designed as a refined cultural and equestrian interior, combining open viewing areas, exhibition displays, and comfortable visitor seating. The warm wall finishes, curved arena layout, display cases, and carefully selected furniture create an elegant environment that supports both education and hospitality while celebrating the heritage of Arabian horses.

The scope of work focuses on the supply, delivery, and installation of joinery, doors, and furniture, all coordinated to support the museum's function and visual identity. Custom display units, refined door details, seating elements, and timber works help organize the space, guide visitor circulation, and create a polished interior experience that feels durable, functional, and culturally connected.

SCOPE OF WORK

Joinery and Millworks

The horse museum interior is designed as a refined cultural and equestrian space, combining open arena views, exhibition displays, and comfortable visitor seating. The curved viewing layout, warm wall finishes, light timber flooring, display cases, and sculptural ceiling lighting create an elegant environment that supports both education and hospitality while celebrating the heritage of Arabian horses.

The scope of work focuses on the supply, delivery, and installation of joinery, doors, and furniture, all carefully coordinated with the museum's functional and visual needs. Custom display units, timber details, seating elements, and door works help organize the visitor journey, support clear circulation, and create a polished interior atmosphere that feels durable, welcoming, and culturally connected.

Additional furniture and joinery elements strengthen the museum's overall presentation by creating a cohesive relationship between the arena, display zones, and visitor seating areas. Each installed component is designed to support long-term use, visual consistency, and guest comfort, helping the space function as both an educational museum environment and a refined equestrian hospitality setting.

EY

Riyadh, KSA

EY Riyadh is a contemporary corporate workplace designed to support collaboration, focused work, and efficient daily operations. The interior combines soft neutral finishes, warm timber flooring, refined colour accents, integrated lighting, and carefully planned architectural details to create a professional yet welcoming environment.

Office Interior

The office interior is designed as a flexible and contemporary workplace, combining open workstations, collaborative zones, integrated planting, curved partitions, and bespoke joinery. Soft finishes and warm accent colours create a comfortable atmosphere, while sculptural ceiling lighting and carefully organised circulation bring rhythm and continuity to the space.

The scope of work included the supply and installation of custom pantry cabinetry, integrated storage, display shelving, partitions, counters, planters, and executive-office furniture. Each joinery element was carefully coordinated with the lighting, equipment, finishes, and technical requirements to create a cohesive workplace that feels precise, functional, and visually refined.

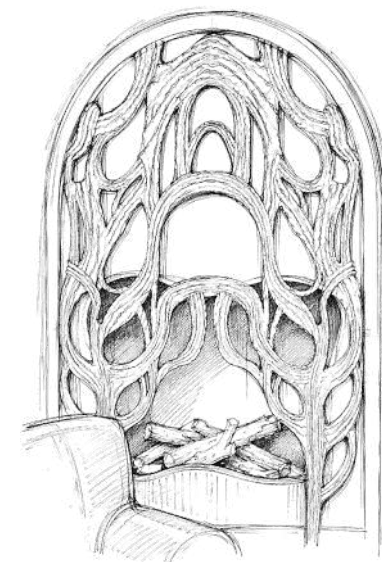

SCOPE OF WORK

Joinery and Millworks

The executive office is designed as a calm and refined workspace, combining integrated shelving, concealed storage, warm neutral finishes, and soft architectural lighting. Bespoke cabinetry creates an organised backdrop for display and storage while maintaining a clean, professional character suited to focused work and private meetings.

The pantry areas combine functional planning with a strong visual identity through custom cabinetry, rounded profiles, integrated appliances, illuminated shelving, and precisely detailed work surfaces. Carefully coordinated materials and concealed storage support efficient daily use while maintaining a polished and consistent appearance throughout the office.

Cigar Lounge

Doha, Qatar

The cigar lounge is designed as a refined and intimate hospitality space, combining dark timber finishes, soft lighting, arched details, lounge seating, and curated display elements to create a warm, private, and sophisticated atmosphere for premium guest experiences in Doha.

Design Lounge

The lounge showroom is designed as a refined and intimate hospitality space, combining dark timber finishes, arched mirror details, warm integrated lighting, green upholstered furniture, and decorative display elements. The rich material palette creates a sophisticated atmosphere that feels private, elegant, and strongly connected to the character of a premium cigar lounge.

The scope of work focuses on the supply, delivery, and installation of doors and furniture, carefully coordinated to support both comfort and visual identity. Custom door details, lounge seating, display furniture, shelving, and decorative furniture elements help define the space, improve functionality, and create a polished guest experience.

SCOPE OF WORK

Fit-Out Works

The detailed furniture pieces add depth and character to the interior, from the curved shelving and illuminated mirrors to the soft upholstered panels and crafted display units. Every installed element supports the lounge's atmosphere of comfort, privacy, and understated luxury.

The lounge showroom detail highlights the refined character of the cigar lounge interior, combining dark timber finishes, framed artwork, decorative wall displays, curved shelving, and crafted ornamental panels. These elements create a warm and intimate atmosphere that feels personal, elegant, and connected to the lounge’s premium hospitality identity.

The scope of work focuses on the supply, delivery, and installation of doors and furniture, carefully coordinated to support both comfort and visual consistency. Custom furniture pieces, display shelving, door elements, and detailed timber features help define the space, organize the interior, and create a polished guest experience.

The close-up views emphasize the craftsmanship behind each installed element, from carved timber patterns and rounded mirrors to integrated shelving and curated decorative details. Every component contributes to a cohesive lounge environment that feels private, refined, and thoughtfully designed for relaxation and conversation.

Crafted Precision

Every project reflects our commitment to precision, material expertise, and exceptional execution. From technical development and fabrication to installation and final detailing, each stage is carefully coordinated to transform complex design concepts into refined, functional, and enduring interior solutions.

Through advanced production capabilities, skilled craftsmanship, and close collaboration with architects, designers, and clients, we deliver bespoke joinery and millwork that meet the highest standards of quality. Every element is made with purpose—bringing together innovation, detail, and execution.
