GENERAL PROFILE

2012 - 2026

About us

Basic Elements Solutions is a leading international company offering turnkey solutions covering all design and contracting aspects from planning, conceptualizing, design and executing.

With a wide portfolio of projects ranging from decorating a hospitality, residential and commercial design that can provide the services of full turnkey projects.

Our Services

FIT-OUT WORKS

Complete fit-out solutions delivered through precise execution, strategic planning, and quality craftsmanship.

JOINERY & WOOD WORK

Custom architectural joinery and premium woodwork manufactured with advanced techniques and high-quality finishing standards.

SOLID SURFACES

Expert fabrication and installation of seamless, durable, and high-performance solid surface solutions.

Built on Expertise

Basic Elements Solutions is a multidisciplinary design, build, and fabrication company with over 15 years of experience delivering projects across Qatar, the UAE, Iraq, Saudi Arabia, Georgia, and international markets.

Our expertise includes turnkey interior solutions, high-end architectural joinery, woodwork and solid-surface fabrication. Supported by skilled craftsmen, modern production capabilities, and a worldwide network of partners, we manage every stage from concept and fabrication to installation and final delivery.

Driven by innovation, craftsmanship, and precise execution, BES creates functional, refined, and reliable environments tailored to the individual needs of every project.

F&B

Creating refined restaurant interiors through thoughtful design, precise craftsmanship, and complete turn-key execution.

03

Basic Elements Solutions delivers integrated design and build services for restaurants, cafés, lounges, and dining destinations internationally. Each project is developed with a focus on guest comfort, operational flow, material quality, and a strong visual identity that supports both daily service and memorable hospitality experiences.

From interior fit-out and bespoke architectural joinery to doors, furniture, wall finishes, solid-surface fabrication, our multidisciplinary expertise allows us to create distinctive restaurant environments that balance atmosphere, durability, functionality, and seamless execution.

Apple Butter Café

Riyadh, KSA

Apple Butter Café in Riyadh is designed as a warm and contemporary all-day dining destination, bringing a London café concept into the vibrant setting of KAFD. The interior combines soft hospitality comfort with a strong visual identity, creating a welcoming space for breakfast, coffee, lunch, desserts, casual meetings, and social gatherings.

Café Interior

The café interior is designed as a warm and inviting hospitality space, combining brick wall finishes, arched mirror details, green banquette seating, patterned flooring, and soft decorative lighting. The rich material palette and natural-inspired elements create a relaxed dining atmosphere that feels lively, comfortable, and strongly connected to the character of Apple Butter Café.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both the visual identity and daily operation of the café. Lighting, mechanical systems, ceiling details, wall finishes, flooring, and service-related elements are integrated to create a functional and polished environment for guests and staff.

SCOPE OF WORK

Fit-Out Works

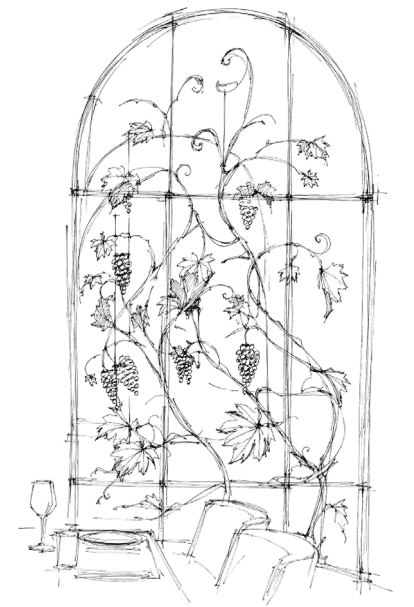

The outdoor dining area is designed as a lively and welcoming café extension, combining warm lighting, bold red framing, brick wall finishes, patterned chairs, and natural woven pendant lights. The open seating arrangement creates a relaxed hospitality atmosphere, while the strong colour palette and decorative details give Apple Butter Café a memorable and distinctive identity.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both indoor and outdoor dining operations. Lighting, ceiling elements, service connections, finishes, and technical systems are integrated to create a functional, durable, and visually cohesive café environment.

The completed space balances comfort, character, and commercial performance. Every detail, from the furniture layout and lighting to the façade treatment and material finishes, supports a smooth guest experience and creates an inviting setting for breakfast, coffee, casual dining, and social gatherings

Mosavali Restaurant

Doha, Qatar

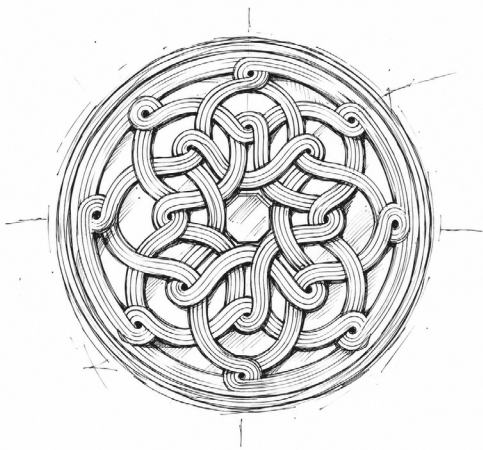

Mosavali Restaurant is designed as a warm and characterful Georgian dining destination, bringing traditional cuisine, rich hospitality, and cultural atmosphere into a refined restaurant setting. The interior should reflect comfort, authenticity, and elegance, creating a welcoming space for family dining, social gatherings, and memorable guest experiences.

Interior Design

Mosavali Restaurant is designed as a warm and characterful Georgian dining destination, combining natural stone textures, warm lighting, decorative wall details, and comfortable lounge-style seating. The interior creates an inviting atmosphere that reflects Georgian hospitality, with rich materials and cultural references giving the space a distinctive and memorable identity.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both the restaurant’s visual concept and daily operation. Lighting, mechanical systems, wall finishes, flooring, ceiling elements, and service-related details are integrated to create a functional, durable, and polished hospitality environment.

SCOPE OF WORK

Joinery and Millworks

The completed space balances cultural expression with commercial restaurant performance. Every detail, from the reception area and bar backdrop to the seating layout and technical coordination, supports guest comfort, smooth service, and a refined dining experience that feels authentic, warm, and carefully crafted.

The seating area is designed as a warm and atmospheric restaurant interior, combining soft lounge furniture, dark timber tables, textured wall finishes, and carefully curated artwork. The layered lighting and decorative wall details create a relaxed hospitality setting that feels intimate, refined, and connected to the cultural character of Mosavali Restaurant.

Seating Area

The bar and display details add depth and visual richness to the space, supporting both service functionality and the overall guest experience. Glass shelving, warm backlighting, dark surfaces, and decorative objects create a polished focal point, while the seating layout encourages comfort, conversation, and longer dining experiences.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support the restaurant's daily operation and interior identity. Lighting systems, wall finishes, ceiling elements, flooring, and technical services are integrated to create a durable, functional, and elegant hospitality environment.

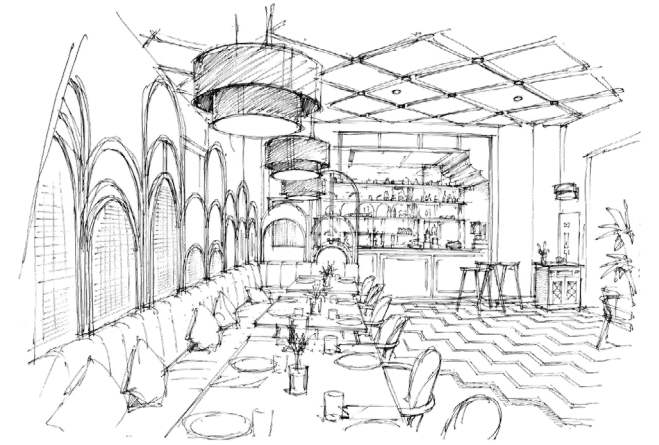

The restaurant interior is designed as a warm and authentic Georgian hospitality space, combining carved timber ceilings, natural stone textures, warm lighting, and carefully selected dining furniture. The rich material palette, traditional decorative details, and soft seating arrangement create an inviting atmosphere that reflects the cultural character of Mosavali Restaurant.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both the restaurant's visual identity and daily operation. Ceiling details, wall finishes, flooring, lighting, mechanical systems, and service-related elements are integrated to create a functional, durable, and refined dining environment.

The detailed craftsmanship gives the space a strong sense of identity, from the carved timber elements and textured stone walls to the furniture layout and warm ambient lighting. Every detail supports guest comfort, smooth restaurant service, and a memorable dining experience rooted in Georgian hospitality.

Layali Restaurant

Doha, Qatar

The Lebanese restaurant is designed as a warm and expressive dining destination, bringing together traditional hospitality, rich culinary culture, and a refined interior atmosphere. The space should feel welcoming and atmospheric, combining comfortable seating, warm lighting, natural materials, and decorative details that reflect the character of Lebanese dining.

Dining Area

The dining area is designed as a warm and characterful Lebanese restaurant interior, combining textured stone walls, patterned flooring, decorative ceiling details, and comfortable upholstered seating. The rich material palette, arched forms, warm lighting, and layered decorative elements create an inviting hospitality atmosphere that reflects the expressive spirit of Lebanese dining.

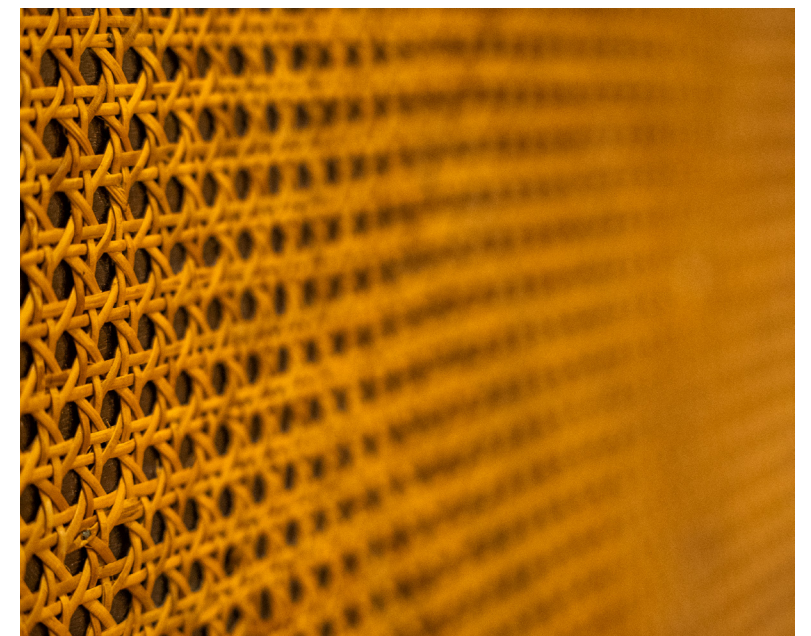

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both the restaurant's visual identity and daily operation. Lighting, mechanical systems, wall finishes, ceiling elements, flooring, and service-related details are integrated to create a functional, durable, and polished dining environment.

SCOPE OF WORK

Fit-Out Works

The completed space balances cultural character with commercial restaurant performance. Every detail, from the seating layout and lighting to the ceiling treatment and material finishes, supports guest comfort, smooth service, and a memorable dining experience suited for family gatherings, social dining, and refined hospitality moments.

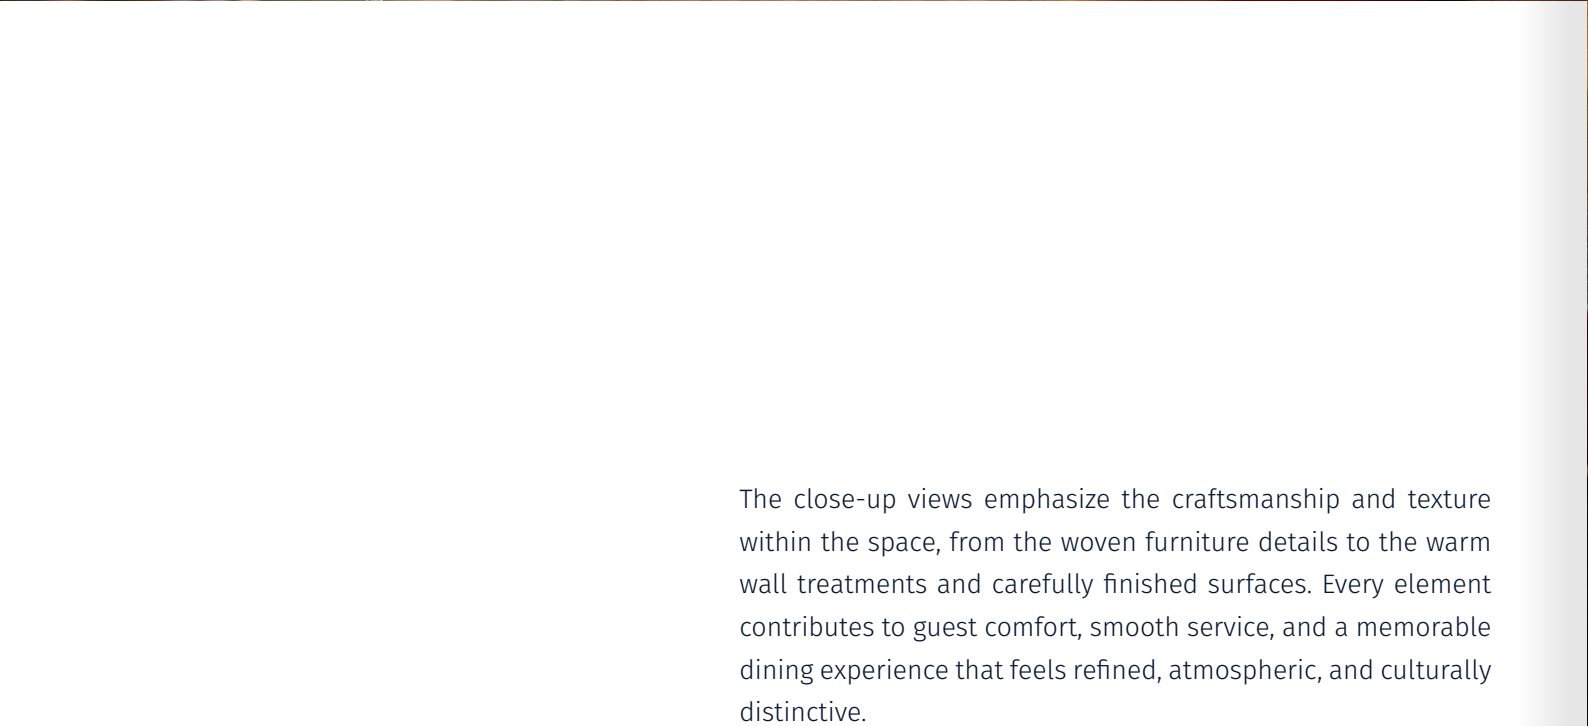

The dining area is designed as a warm and expressive Lebanese restaurant interior, combining patterned flooring, textured wall finishes, decorative ceiling panels, soft banquette seating, and red upholstered dining chairs. The rich materials, layered lighting, and traditional-inspired details create a welcoming hospitality atmosphere with a strong cultural identity.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both the restaurant's visual concept and daily operation. Lighting systems, mechanical services, ceiling elements, flooring, wall finishes, and technical details are integrated to create a functional, durable, and polished dining environment.

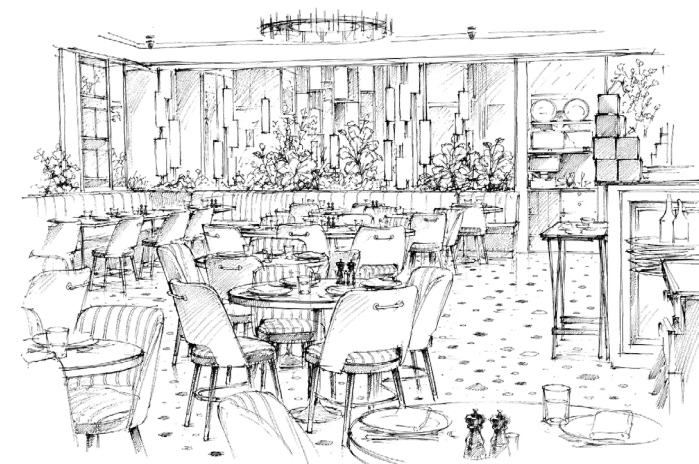

The dining area detail highlights the restaurant's warm and expressive material language, combining rich timber finishes, woven chair textures, patterned flooring, decorative ceiling panels, and soft ambient lighting. These elements create a layered hospitality atmosphere that feels elegant, comfortable, and strongly connected to the character of Lebanese dining.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both the interior concept and daily restaurant operation. Lighting systems, ceiling details, wall finishes, flooring, mechanical services, and technical elements are integrated to create a functional, durable, and visually cohesive dining environment.

The close-up views emphasize the craftsmanship and texture within the space, from the woven furniture details to the warm wall treatments and carefully finished surfaces. Every element contributes to guest comfort, smooth service, and a memorable dining experience that feels refined, atmospheric, and culturally distinctive.

Crazy Pizza

Doha, Qatar

Crazy Pizza Doha is designed as a lively and stylish Italian dining destination, combining playful hospitality energy with a refined restaurant atmosphere. The space reflects a modern interpretation of Italian dining, where comfort, visual character, and a vibrant guest experience come together.

Dining Area

The dining area is designed as a vibrant and atmospheric restaurant interior, combining lush greenery, soft globe lighting, pink upholstered seating, dark flooring, and refined decorative details. The layered planting and warm lighting create a lively hospitality setting that feels fresh, playful, and connected to the energetic identity of Crazy Pizza Doha.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support both the restaurant's visual concept and daily operation. Lighting systems, mechanical services, wall finishes, flooring, ceiling elements, and service-related details are integrated to create a functional, durable, and polished dining environment.

SCOPE OF WORK

Joinery and Millworks

The completed space balances playful restaurant character with commercial performance. Every detail, from the seating layout and lighting to the greenery and technical coordination, supports guest comfort, smooth service, and a memorable dining experience suited for casual meals, social gatherings, and lively hospitality moments.

The dining area detail highlights the refined and playful character of Crazy Pizza Doha, combining warm brass accents, leather dining chairs, dark banquette seating, decorative lighting, and polished service counters. The interior creates a stylish restaurant atmosphere that feels lively, elegant, and comfortable for both casual dining and social gatherings.

The scope of work focuses on the supply and installation of fit-out and MEP works, carefully coordinated to support the restaurant's visual identity and daily operation. Lighting systems, ceiling elements, wall finishes, flooring, mechanical services, and technical details are integrated to create a durable and polished dining environment.

The seating area is designed as a refined and lively restaurant interior, combining leather dining chairs, dark banquette seating, warm lighting, decorative display walls, and carefully planned table arrangements. The material palette creates a stylish and welcoming atmosphere that reflects the playful yet elegant identity of Crazy Pizza Doha.
